CROSS-BORDER STRATEGIC ALLIANCE MOI — PRECISION ALLIANCE (SOUTH AFRICA, ZIMBABWE, KENYA, GHANA)

SCAPUSH PRECISION STANDARD

MEMORANDUM OF INTENT (MOI)

Pan-African Technical & Advisory Consortium (PATAC) | Just Energy Transition (JET) EOI Alignment

Framework: Scapush Precision Execution Standard

Scope: Continental Agrivoltaics, TVET & Smart Water Systems

Status: PRE-REGISTRATION STRATEGIC ALLIANCE

✓ FULLY ALIGNED FOR CONTINENTAL GRANT ACQUISITION, SOUTH-SOUTH TECHNOLOGY TRANSFER, AND SANS 10400-S UNIVERSAL ACCESSIBILITY.

1. PARTIES TO THE STRATEGIC ALLIANCE

1.1. Sipho Wiseman Khuzwayo, Founder, Steward & Inclusive Legacy Architect representing Lwandile Engineering Projects (Pty) Ltd (South Africa). Email: siphokhuzwayo12@gmail.com.

1.2. Peterson Asingadi, Power Engineering Senior Lecturer & Prestige Academic Hub Custodian representing Zimbabwe academic and TVET integration workstreams. Email: asingadipa@gmail.com | Phone: +27 61 036 1258.

1.3. Paul Neema, Professional Process Instrumentation Engineer & Precision Engineering Anchor representing Kenya agrivoltaics, AI dashboard monitoring, and water systems. Email: havenwill289@gmail.com | Phone: +254 740 779 407.

1.4. Godwin Grant Oyintey, Agricultural Specialist & Head of Investment, Real Estate & Market Expansion representing Ghana investment and real estate pillar. Email: admi.victorytomankind.2005@gmail.com | Phone: +233 54 492 7023.

2. VISION, PURPOSE AND STRATEGIC ALIGNMENT

2.1. Precision is our execution model. This Alliance unites elite African technologists, educators, and infrastructure experts to drive sustainable agrivoltaics through AI, renewable energy, and precision agriculture.

2.2. The Parties establish this Memorandum of Intent (MoI) to formalize cooperation for the upcoming Just Energy Transition (JET) Expression of Interest (EOI) and subsequent developmental capital deployment.

3. GOVERNANCE AND EQUITY STRUCTURE

3.1. The Alliance operates on an equitable baseline distribution model, recognizing each principal's strategic contribution across technical, academic, and financial pillars.

3.2. Governance decisions shall be governed by transparent consensus under the Scapush Precision Execution Standard, ensuring complete operational autonomy and collective impact.

4. PILLAR ROLES & TECHNICAL EXECUTION

4.1. Sipho Khuzwayo: Leads ceremonial direction, governance artifact creation, funder alignment, and legacy transmission.

4.2. Godwin Grant Oyintey: Develops investment strategies, land acquisition models, and funder-facing real estate portfolios.

4.3. Peterson Asingadi: Designs accredited agrivoltaic training modules, leads TVET integration, and aligns curricula with funder impact metrics.

4.4. Paul Neema: Oversees technical deployment of agrivoltaic systems, smart water irrigation, AI-based monitoring dashboards, and zero-mortality automation.

5. STRATEGIC ANNEXURES & OPERATIONAL FRAMEWORK

ANNEXURE A — CAMPUS INFRASTRUCTURE & AGRIVOLTAICS

Deployment of 20,000 square meter bi-solar facilities integrating crop production, livestock, hydroponics, and SANS 10400-S step-free pathways.

ANNEXURE B — SCAPUSH PRECISION EXECUTION STANDARD

Rigorous monthly financial audits, zero administrative drift, and transparent milestone tracking.

ANNEXURE C — VOCATIONAL TRAINING & TVET INTEGRATION

Cross-border accredited skills transfer programs designed for disability inclusion and green economy readiness.

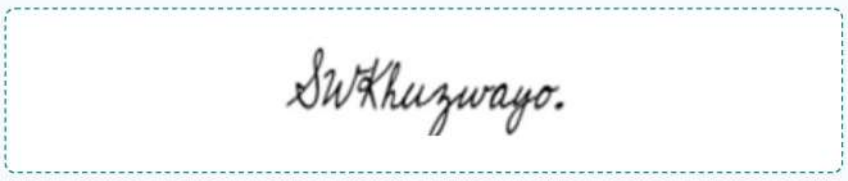

ANNEXURE D — FUNDING ARCHITECTURE & GRANT RING-FENCING

Securing JET grants, philanthropic capital, and ESG investments with strict dual-signature fund accounting.

6. FORMAL ALLIANCE EXECUTION & SIGNATURES

Signed electronically in alignment with international best practice and the Scapush Precision cryptographic timestamp protocol.
